

PREVENTION

NEVER GOES OUT

OF FASHION

AND SEX WITH PROTECTION IS COOL, RIGHT?

Generation goes, invention comes... the condom is still the safest and most effective way against AIDS.

And, despite what you hear,

in Brazil, heterosexual men account for **49%** of those infected with HIV

and you believe everything you read...

So, in the nick of the time, be square. If the babe thinks you're hot and the flirtation has ended up between four walls, don't complicate things:

WEAR A CONDOM.
